**RE: PBC MS4, NPDES Permit No. FLS000018
5 Year Annual Report Comments
Town of Lake Clarke Shores
SJE Project # 92042.001**

Dear Mr. Kelly;

This letter is pursuant to your letter dated April 25, 2008 and is in response to SAIC's requests for additional information for the Town of Lake Clarke Shores. The comments are repeated below (to assist the reader) then these comments are followed by our responses.

Town of Lake Clarke Shores

Section VII, Part III.A.7.a Illicit Discharges and Improper Disposal – Inspections, Ordinances, and Enforcement Measures: Please provide an explanation of why no pro-active inspections of suspected illicit connections/discharges/dumping occurred.

My most sincere apologies for this omission. The undersigned was the new representative for the Town and promptly met with staff to explain the reporting requirements. The forms that were then being utilized did not include "pro-active inspections". The forms were then revised but somehow did not get into the inspectors hands. Although this pro-active inspection did occur, they were not written down and could therefore not be reported to DEP. We have added the requirement this year.

We trust the above satisfactorily answers your request for additional information.

Very Truly Yours,

Jay G. Foy, P.E.
President, StormwaterJ Engineering, Inc.
Engineer, Lake Clarke Shores
