RE: NPDES REPORT Section VII, Part III.A.9.a

Dear Mr. Kelly,

In response to your letter, our report for construction site plan/permit review application reviews should have been 13 inspections. This was an oversight on our part and we apologize for not reflecting this number in our annual report. Please feel free to contact me with additional questions or concerns at 561-804-7023.

Sincerely,

Prince Alexander
Public Works Superintendent
