Year 1, Cycle 3 Annual Report Comments – Response to Request for Additional Information

Dear Mr. Livingston,

Enclosed is the additional information requested as part of your review of the City of Boynton Beach's Year 1, Cycle 3 Annual Report. We received the following comment:

City of Boynton Beach

- 1) Section VII, Part III.A.9.b of the Annual Report form requires the permittee to report the number of inspections conducted on the 6 active permittee construction site and the 5 active private construction sites during the reporting period. Explain why only 6 and 5 inspections were conducted on the 6 permittee construction sites and the 5 private construction sites, respectively.***

Six "6" permittee construction projects and five "5" private construction projects were in progress during the reporting period. The number of site inspections were reported as "6" (permittee sites) and "5" (private sites) to correspond to the number of actual construction projects in progress. In reality, construction site inspections are performed by City staff and our engineering consultants' construction inspectors at least on a weekly basis, often on a daily basis, throughout the duration of the projects. This will be corrected on future reports.

Page Two

We hope that this adequately addresses your questions. If you need any further information, please contact me by telephone at (561) 742-6401 or by email at boatengk@bbfl.us.

Sincerely,

CITY OF BOYNTON BEACH UTILITIES DEPARTMENT
