**Re: PBC MS4-NPDES Permit No. FLS00018 (Cycle 3)-Year 2 Annual Report Comments  
Response for Town of Mangonia Park**

**Dear Allen,**

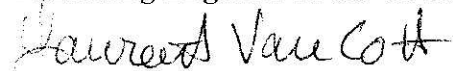

**Pursuant to your comments letter of August 6, 2013, and on behalf of the Town of Mangonia Park, I offer the following response:**

**Page 4-SWMP Inspection Schedule-"did not inspect Stormwater outfalls and inlets inspections"**

**The Town inspected 100% of the system last year and the year before, except for the control structure and outfall pipe, which were physically inaccessible. This situation has been rectified. This year the control structure and the outfall pipe will be inspected, and probably the rest of the system (it is quite small).**

**If you have need of further information or have questions, please do not hesitate to contact me.**

**Sincerely,  
Southern Design Group, Inc.  
Consulting Engineer to the Town of Mangonia Park**
