Subject: RE: City of Riviera Beach Year 4 Annual Report RAI

Hi Michelle,

Good hearing from you again! I've tried to answer all of your questions (see below) regarding the Year 4 NPDES annual report as requested. I hope this helps. Please feel free to contact me at any time if you have any questions or require additional information. Thanks!

- 1.) The differences in the budget from Year 3 (1.5 million) to Year 4 (1.4 million) is primarily due to the fact that in Year 3 we had increased the Storm-water portion of the budget, for that particular year, in order to purchase some much needed SMU equipment, such as a new T.V. video truck for inspecting broken and damaged storm drains, as well as other ancillary items directly related to the MS4.
- 2.) Yes, fertilizer is currently being applied to City-owned or maintained property.
- 3.) There were no spills reported to the CRB Public Works (SMU) Department during the Year 4 period, and so no spills were responded to.
- 4.) No 'sampling' has been performed at High Risk Facilities (HRF) during year 4 period. However, visual inspections have been, and continued to be, periodically performed to determine if there are any suspected illicit discharges into the MS4.
- 5.) All CRB Public Works Storm water personnel are currently certified either as Storm-water Operators (levels 1 & 2) and/or Storm-water Management Inspectors at this time with only one or two exceptions which we plan to get certified as soon as classes are available in our area.
