Angela,

Thank you for your responses to the Year 1 audit. The required improvements are complete, and the assessment plan is approved.

Thanks,

Michelle Bull

Michelle, Good afternoon, I had enclosed a map showing the Village boundary and location of the monitoring site on the assessment plan. I also added to the last part of the evaluation and planning section.

Enclosed is a picture showing the progress, purchased and secondary oil container (Bumblebee). It will be changed out in the future.

Also, enclosed are pictures of the drainage/ low area showing the progress has been made, it has been cleaned up and trees removed. Finishing that in the future as well.

Sincerely, Angie Thul
