

Annual Report Form For Individual NPDES Permits For Municipal Separate Storm Sewer Systems

(RULE 62-624.600(2), F.A.C.)

- This Annual Report Form must be completed and submitted to the Department to satisfy the annual reporting requirements established in Rule 62-621.600, F.A.C.
- Submit this fully completed and signed form and any REQUIRED attachments by email to
 the NPDES Stormwater Program Administrator or to the MS4 coordinator
 (http://www.dep.state.fl.us/water/stormwater/npdes/contacts.htm). Files larger than 10MB
 may be placed on the FTP site at: ftp://ftp.dep.state.fl.us/pub/NPDES Stormwater/. After
 uploading files, email the MS4 coordinator or NPDES Program Administrator to notify
 them the report is ready for downloading; or by mail to the address in the box at right.
- Refer to the Form Instructions for guidance on completing each section.
- Please print or type information in the appropriate areas below.

Submit the form and attachments to: Florida Department of Environmental Protection Mail Station 3585 2600 Blair Stone Road Tallahassee, Florida 32399-2400

SECT	TION I. BACKGROUND INFORMATION			
A.	Permittee Name: Town of Lake Clarke Shore	es		
B.	Permit Name: Palm Beach County MS4			
C.	Permit Number: FLS000018-004			
D.	Annual Report Year: Year 1 Year 2	Year 3	Year 4	Year 5 Other, specify Year:
E.	Reporting Time Period (month/year): 10 / 20)17 through 9/2	018	
	Name of the Responsible Authority: Daniel C	Clark		
	Title: Town Administrator			
_	Mailing Address: 1701 Barbados Road			
F.	City: Lake Clark Shores	Zip Code: 3340	6	County: Palm Beach
	Telephone Number: 561-964-1515		Fax Number	: 561-964-0685
	E-mail Address: dclark@lakeclarke.org			
	Name of the Designated Stormwater Manage Damon Gammons	ement Program C	ontact (if diffe	rent from Section I.F above):
	Title: Utilities Superintendent			
	Department: Public Works			
G.	Mailing Address: 1701 Barbados Road			
	City: Lake Clarke Shores	Zip Code: 3340	6	County: Palm Beach
	Telephone Number: 561-642-7870		Fax Number	: 561-964-0685
	E-mail Address: dgammons@lakeclarke.org			
SECT	TION II. MS4 MAJOR OUTFALL INVENT	ORY (Not Applic	able in Year 1	1)
A.	Number of outfalls ADDED to the outfall inve (Does this number include non-major outfalls			ear (insert "0" if none): 0 Applicable)
В.	Number of outfalls REMOVED from the outfalls (Does this number include non-major outfalls		•	ting year (insert "0" if none): 0 Applicable)
C.	Is the change in the total number of outfalls o	due to lands anne	xed or vacated	d? ☐ Yes ☐ No ⊠ Not Applicable

SECT	ION III. PART V.B. ASSESSMENT PROGRAM
A.	Provide a brief statement as to the status of water quality monitoring plan implementation. Status may include sampling frequency changes, monitoring location changes, or sampling waiver conditions. <u>DEP Note:</u> If permittee participates in a collaborative monitoring plan, permittee may refer to a joint response as defined by the interlocal agreement. Name and date of the approved plan: Current approval of the Group Monitoring Plan is September 8, 2016 (with issuance of the Cycle 4 permit.) Individual Assessment Plan was submitted in September 2017. Status: The Group Monitoring Report is included in the Cycle 4 Joint Annual Report. Our Individual Assessment Plan is awaiting approval by FDEP.
В.	Provide a brief discussion of the monitoring and loading results to date which includes a summary of the water quality monitoring data and / or stormwater pollutant loading changes from the reporting year. DEP Note: Results must be specific to the permittee's SWMP. Please refer to the Cycle 4, Year 2 Joint Annual Report for a summary of the Group's water quality monitoring results for the reporting period. Refer to the Cycle 3, Year 6 Joint Annual Report for proposed pollutant loading analysis changes. The best available information on existing pollutant loading estimates is documented in the Cycle 3, Year 3 Joint Annual Report. A revised individual Assessment Plan was submitted in January 2019 and is under review by FDEP and will be implemented during Year 3 of the permit cycle. Note that in any future reporting year, the Group's water quality monitoring data for the reporting period may not be available for 4 to 6 months after the reporting period has ended. Consequently, any water quality data from the Group Program that is used as part of an individual permittee's Assessment Plan for the reporting period, will be based on the previous year's data.
C.	Attach a monitoring data summary as required by the permit. An analysis of the data discussing changes in water quality and/or stormwater pollutant loading from previous reporting years. <u>DEP Note:</u> Analysis must be specific to the permittee's SWMP. See response for Section III.B. above.

TION IV. FISCAL ANALYSIS
Total expenditures for the NPDES stormwater management program for the current reporting year: \$33,688
Total budget for the NPDES stormwater management program for the subsequent reporting year: \$5,500
Did the current reporting year resources decrease from the previous year? Y ☐ / N ☒
If program resources decreased, provide a discussion of the impacts on the implementation of the SWMP.

SECTION V. MATERIALS TO BE SUBMITTED WITH THIS ANNUAL REPORT FORM Only the following materials are to be submitted to the Department along with this fully completed and signed Annual Report Form (check the appropriate box to indicate whether the item is attached or is not applicable): Attachment Attached N/A Required Attachments **Permit Citation** Number/Title Any additional information required to be submitted in this current \boxtimes annual reporting year in accordance with Part III.A of your permit Part III.A that is not otherwise included in Section VII below. An explanation of why the minimum inspection frequency in П \boxtimes Part II.A.1 Table II.A.1.a. was not met, if applicable. A list of the flood control projects that did not include stormwater \boxtimes treatment and an explanation for each of why it did not (if Part III.A.4 applicable). A monitoring data summary as directed in Section III.C above \boxtimes Part V.B.3 and in accordance with Rule 62-624.600(2)(c), F.A.C. YEAR 1 ONLY: An inventory of all known major outfalls and a \boxtimes map depicting the location of the major outfalls (hard copy or CD-Part III.A.1 ROM) in accordance with Rule 62-624.600(2)(a), F.A.C. YEAR 2: A summary review of codes and regulations to reduce Land Development \boxtimes Part III.A.2 the stormwater impact from development. Codes Summary Year 3 ONLY: The estimates of pollutant loadings and event \boxtimes mean concentrations for each major outfall or each major Part V.A watershed in accordance with Rule 62-624.600(2)(b), F.A.C. \boxtimes YEAR 3: Summary of TMDL Monitoring Results (if applicable). Part VIII.B.2 \boxtimes YEAR 3: Bacteria Pollution Control Plan (if applicable). Part VIII.B.3 YEAR 4: A follow-up report on plan implementation of changes to \boxtimes codes and regulations to reduce the stormwater impact from Part III.A.2 development. YEAR 4: A report on any amendments to the applicable legal \boxtimes Part III.A.7.a authority (if applicable). YEAR 4: Permit re-application information in accordance with Rule 62-624.420(2), F.A.C. The monitoring plan (with revisions, if applicable). Part V.B.3 \boxtimes If the total annual pollutant loadings have not decreased Part V.A.3 over the past two permit cycles, revisions to the SWMP, as appropriate. M YEAR 4: TMDL Supplemental SWMP (if applicable). Part VIII.B.3 DO NOT SUBMIT ANY OTHER MATERIALS (such as records and logs of activities, monitoring raw data, public outreach materials, etc.) SECTION VI. **CERTIFICATION STATEMENT AND SIGNATURE** The Responsible Authority listed in Section I.F above must sign the following certification statement, as per Rule 62-620.305, F.A.C: I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based upon my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information. the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. Name of Responsible Authority (type or print): __Daniel Clark Title: Town Administrator

Town of Lake Clarke Shores Land Development Codes Summary

List of Regulations Reviewed

Code of Ordinances for the Town of Lake Clarke Shores;

- Chapter 10 Buildings and Building Regulations, Article III Lot Clearing and Filling
- Chapter 117 Subdivision and Development Regulations, Article III Improvements, Division 2 Requirements, Sec. 117-88 Clearing; Grading; Filling., Sec. 117-89 Drainage.
- Chapter 117 Subdivision and Development Regulations, Article IV Design Requirements, Sec. 117-190 Stormwater Management System
- Chapter 125 Zoning, Article V Nonconformities, Division 4 restrictions and Limitations on Components of Use, Sec. 125-239 – Increase exterior; expansion; enlargement
- Chapter 125 Zoning, Article V Nonconformities, Division 4 restrictions and Limitations on Components of Use, Sec. 125-234 – Replacement; restoration; reconstruction

List of Current Techniques Aimed at Reducing the Stormwater Impacts

- New stormwater management systems to consider improvement of substandard systems "New development to take into account the possibility that substandard systems may be
 improved in the future." (Sec. 117-190(a))
- Minimum design criteria of three-year storm "Rainfall runoff, surface water and groundwaters shall be managed in subdivisions to minimize degradation of water quality, nutrients, turbidity, debris and other harmful substances, and maximize percolation and detention to promote the reuse of this resource. Stormwater treatment facilities shall be designed, sized and performance evaluated to accommodate, as a minimum requirement, a three-year storm." (Sec. 117-190(c))
- Runoff to be directed over pervious areas "Runoff from roads, parking lots, roofs and other
 impervious surfaces should be directed over areas where percolation into soil can be
 accomplished prior to introduction into any storm sewer or other receiving facilities." (Sec. 117190(c))
- Treatment of runoff via vegetation "Pervious areas should be covered with vegetation requiring periodic cutting and removal." (Sec. 117-190(c))
- Limitation of flows over impervious areas "The maximum recommended runoff flow distance over impervious surfaces before being diverted to percolation areas should be 50 feet..." (Sec. 117-190(c))
- Recovery of treatment volume required "Temporary ponding is allowable in areas specifically designed with high percolation rates so that ponding does not last more than eight hours." (Sec. 117-190(c))
- Non-Complying Off Street Parking not allowed to expand without full compliance "A
 nonconforming component of use shall not be increased, extended, expanded, or enlarged to
 occupy a greater land area than was occupied on the adoption date of this Code or in any
 manner which increases its noncompliance with the property development regulation of this
 chapter, unless such nonconforming component of use is brought into full compliance with all
 other property development regulations of the zoning district." (Sec. 125-240)
- Redeveloped buildings of greater than 50% of value or 50% of physical area shall be brought into full compliance. (Sec. 125-240)

Town of Lake Clarke Shores Land Development Codes Summary

<u>List of Techniques Recommended/Proposed for Future Incorporation into the Regulations</u>

After a review of current requirements, no additional techniques are recommended.
 Ordinances identify specific goals, criteria and methods for reduction of stormwater impacts of new development and redevelopment.

<u>Plan for Implementing Changes</u>

• After a review of current requirements, no additional techniques are recommended.
